

**JY Smart Touch-Free Rubbish Bin Touchless  
Trash Can Auto Garbage 16L – Grey**

# **Instruction Manual**

## **INDUCTION TRASH CAN**

This product is mainly placed in the office, kitchen, living room, toilet and other places to collect waste. This product can also be used as a storage bucket.

This product has the function of opening the lid in inductive triggering mode. If any object or hand is close to the intelligent infrared sensing area of the product (if the object or hand stays in the sensing area all the time, the lid will continue to open), or knock any position of the barrel body to make the product vibrate, the lid will open automatically, and the lid will close automatically after 5 seconds.

This product is composed of infrared sensor, vibration sensor module, precision mechanical transmission device, microcomputer control chip, etc. It is high-tech, practical and innovative, energy-saving product.

This product has reliable performance, simple to use, low power consumption, convenient sanitation, strong anti-interference ability, beautiful appearance and other advantages.

### **How to replace garbage bags**

- Set the garbage bags
- Secure the bag with the barrel ring
- Cover the lid
- Deodorant products can be placed
- Cover the grid
- Place in a whole roll of garbage bags
